Kent wildlife Trust

Sandwich & Pegwell and Ham Fen Team

Come and join our team of four wardens and friendly band of volunteers. All of the wardens started out as volunteer trainees, and now bring a wide range of expertise.

We work together outdoors in all weathers, doing essential work to ensure our nationally important reserves are special places for wildlife. Our volunteers play a vital part in ensuring rare species have a future.

A recent 33-acre extension to Ham Fen has created lots of work so we are looking to expand our existing team of well-established volunteers.

Task Info

Spring & Summer

Path maintenance, beach cleans, thistle cutting, fence repairs, wildlife and flower monitoring

Autumn & Winter

Scrub-bashing, sea buckthorn cutting, reed cutting, coppicing – and often a warming bonfire!

Ham Fen is the last surviving ancient fen in Kent. The introduction of beavers has helped return habitat features crucial for water voles, kingfishers, fish and other aquatic creatures. Only staff and volunteers can visit this closed site.

Sandwich & Pegwell Bay is a National Nature Reserve and a coastal haven of international importance for birds and rare flora. Boasting ancient dunes, sand and shingle, white cliffs and saltmarsh, you can find seals, rare birds, butterflies, and spectacular Lizard orchids here.

Commitment: Our task days are twice a week, and you can do both, come weekly, monthly, or ad-hoc.

Training: Full training is given and you'll only be asked to do work you are comfortable with. There is option to do further training in machinery use or team leading too.
